Are You Tired, Nervous and Sleepless?

Nervousness and sleeplessness are usually due to the fact that the nerves are not fed on properly nourishing food; they are starved nerves. Dr. Pierce's Golden Medical Discovery makes pure, rich blood, and thereby the nerves are properly nourished and all the organs of the body are run as smoothly as machinery which runs on oil. In this way you feel clean, strong and vigorous—you are toned up and invigorated, and you are good for a whole lot of physical or mental work. Best of all, the strength and increase in vitality and health are lasting. The trouble with most tonics and medicines which have a large, booming sale for a short time, is that they are largely composed of alcohol holding the drugs in solution. This alcohol shrinks up the red blood corpuscles, and in the long run greatly injures the system. One may feel exhilarated and better for the time being, yet in the end weakened and with vitality decreased. Dr. Pierce's Golden Medical Discovery contains no alcohol. Every bottle of it bears upon its wrapper the *Badge of Honesty*, a full list of all its several ingredients. For the druggist to offer you something he claims is "just as good" is to insult your intelligence. Every ingredient entering into the world-famous "Golden Medical Discovery" has the unanimous approval and endorsement of all the leading medical authorities of all the several schools of practice. No other medicine sold through druggists for like purposes has any such endorsement. The "Golden Medical Discovery" not only produces all the good effects to be obtained from the use of Golden Seal root, in all stomach, liver and bowel troubles, as in dyspepsia, biliousness, constipation, ulceration of stomach and bowels and kindred ailments, but the Golden Seal root used in its composition is greatly enhanced in its curative action by other ingredients such as Stone root, Black Cherry bark, Bloodroot, Mandrake root and chemically pure tripe-refined glycerine. The "Common Sense Medical Adviser," is sent free in paper covers on receipt of 21 one-cent stamps to pay the cost of mailing only. For 31 stamps the cloth-bound volume will be sent. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure constipation, biliousness and headache.

Tilt Between Senators.

A very bitter and acrimonious debate broke out in the Senate yesterday between Senator Hopkins, of Illinois, and Senator Tillman, of South Carolina. The dispute began over the charges in connection with the Walsh bank failure in Chicago. The race issue was injected into the debate by Mr. Hopkins, who charged Mr. Tillman with approving the burning of negroes in the South. After stating that Mr. Tillman was a modern reformer from South Carolina, which State has a white population of 557,000 and a black population of 782,000, Mr. Hopkins charged Mr. Tillman with having reached the Senate by suppressing the colored vote. He asked if Mr. Tillman would deny having said in 1900 that he had done all he could to keep negroes from voting.

"Why should I deny it," answered Mr. Tillman, "when I put it in the Record? I do not deny it."

Mr. Tillman, declared Mr. Hopkins, was a man most indifferent to obedience to law in his own State.

"My God," he exclaimed, "think of having here a man who gives his approval to the burning of his fellow-creatures—men and women!"

Following a statement by Mr. Hopkins that in the North the courts dealt with offenders, Mr. Tillman hotly inquired: "How about the affair at Springfield, Ohio?"

This brought Mr. Foraker to his feet with the statement that, while it was a regrettable incident, the law immediately has been invoked to punish the offenders. He was glad to see that Mr. Tillman was the only Senator who denounced shooting and burning negroes.

Mr. Tillman asserted that Mr. Hopkins had not replied to his charges, and upon Mr. Hopkins' refusal to state that he was the vice-president of the bonding company, Mr. Tillman said that he took his refusal as a confession and "as proof positive that he is exercising his official position to promote the violation of the law."

At this juncture both Senators Colom and Hopkins denied using their influence in Walsh's behalf.

Mr. Hopkins charged Mr. Tillman with exploiting himself for the purpose of securing newspaper notoriety and said he could not understand why a man coming from "such a State as South Carolina" should be concerned about the administration or the law in Chicago, where the people were able to take care of themselves.

The colloquy between Messrs. Tillman and Hopkins continued. At the top of their voices the two Senators engaged in wrangling, one talking on banks, the other on negroes, until Mr. Aldrich finally called for the regular order.

Mr. Tillman declared he would sit down when he got ready, and insisted that he was trying to get Mr. Hopkins to answer him regarding the Walsh bank. The dispute was renewed and became even more heated. Mr. Tillman repeated that in South Carolina it was necessary "to destroy the brute who outrages a white woman in order for the white men to gain protection for their wives and daughters."

The Vice-President declared that the rules of debate would be enforced, but before either of the combatants could reply Mr. La Follette was recognized and spoke on the race bill.

Desperate Negro Killed.

William H. White, keeper of Camp Ostell toll bridge, which spans the Elizabeth river between Norfolk and Berkeley, was shot through the lungs yesterday morning by John Davis, a desperate negro of Sweet Canaan, Norfolk county, who was afterward hunted down and killed. No one was present when the shooting of White occurred. The wounded man said Davis attempted to cross the bridge without paying the cent charged pedestrians. When he remonstrated, the negro shot him. White's family summoned the police, and with the passengers from a street car which came along a few minutes after the shooting the police went on a hunt for the negro.

At Tam's store, which is near by, they were told that a negro answering the description of Davis had just come in with a revolver in hand and compelled the clerk on duty to give him the money in the cash drawer, some \$25, and had made for the woods. They followed and soon after came upon Davis, who, they said, fired upon them from ambush. About eight pistols answered Davis's fire, and he fell, wounded in several places, but held his weapon and fought until it was wrested from him.

He was conveyed to Norfolk uptown

A Young Mother of 70.

Thousands of Women

ARE MADE WELL AND STRONG

Success of Lydia E. Pinkham's Vegetable Compound Rests Upon the Fact that it Really Does Make Sick Women Well.

Thousands upon thousands of American women have been restored to health by Lydia E. Pinkham's Vegetable Compound. Their letters are on file in Mrs. Pinkham's office, and prove this statement to be a fact and not a mere boast.

Overshadowing indeed is the success of this great medicine, and compared with it all other medicines and treatment for women are experiments.

Why has Lydia E. Pinkham's Vegetable Compound accomplished such widespread results for good?

Why has it lived and thrived and done its glorious work for a quarter of a century?

Simply and surely because of its sterling worth. The reason no other medicine has even approached its success is plainly and positively because there is no other medicine in the world so good for women's ills.

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womanhood is not because it is a stimulant—not because it is a palliative, but simply because it is the most wonderful tonic and restorative ever discovered to act directly upon the female system, positively curing disease and displacements and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have recognized the virtue in Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due. If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ills, as they know by experience that it will effect a cure.

Women who are troubled with painful or irregular periods, backache, bloating (or flatulence), weakness, displacements, inflammation, ulceration, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to health and strength by taking Lydia E. Pinkham's Vegetable Compound. Any way write to Mrs. Pinkham, Lynn, Mass., for advice. It's free and always helpful.

police station, where he died before a surgeon could reach him.

Thousands of negroes gathered about the station, but there was no further trouble, the crowd being merely curious. There was, however, much excitement about Norfolk until the facts concerning the tragedy became known.

White, who is a special policeman and bears an excellent reputation, has a wife and 10 children. He is now in St. Vincent's Hospital, but it is believed he will recover. He declares that Davis shot him in cold blood and without provocation.

Victims of the Rail

Accident Bulletin No. 18, just issued by the Interstate Commerce Commission for the three months ending December 31, 1905, shows the total number of casualties to passengers and employees to be 18,227—1,109 killed and 17,118 injured.

This is an increase of 56 in the number killed and 732 in the number injured over those reported in the preceding three months, and an increase of 158 in the number killed and 3,091 in the number injured in the same quarter one year ago.

The number of passengers and employees killed in train accidents was 320, as against 272 in the preceding three months and 243 in the same quarter one year ago. The injured numbered 3,797, as against 3,455 in the preceding three months and 3,298 in the same quarter one year ago.

Casualties to employees show a considerable increase. This is probably due to the enormous traffic moved on all the principal railroads of the country and the increasing strain put on employees, as well as the employment of new and inexperienced men.
